

# Challenge 5

## A Plant Study

Kindly sponsored by DOC

- 🌸 Choose one plant on the bush floor and if possible identify it.
- 🌸 Draw and describe the plant.
- 🌸 See if you can work out how the plant reproduces.
- 🌸 Write a description of where the plant lives that includes:
  - ★ The amount of light it receives
  - ★ The amount of moisture in the air and in the soil
  - ★ The nature of the soil it lives in
  - ★ How much space the plant has to grow
  - ★ What plants it competes with for light, space or water.
- 🌸 Decide if the plant is being eaten by animals and if so predict what might be eating it and add this to your description.
